The International Bureau notifies the applicant that copies of that translation have been transmitted to the following designated or elected Offices requiring such translation:

KR

The following designated or elected Offices, having waived the requirement for such a transmittal at this time, will receive copies of that translation from the International Bureau only upon their request:

AE, AG, AL, AM, AP, AT, AU, AZ, BA, BB, BG, BR, BW, BY, BZ, CA, CH, CN, CO, CR, CU, CZ, DE, DK, DM, DZ, EA, EC, EE, EG, EP, ES, FI, GB, GD, GE, GH, GM, HR, HU, ID, IL, IN, IS, JP, KE, KG, KP, KZ, LC, LK, LR, LS, LT, LU, LV, MA, MD, MG, MK, MN, MW, MX, MZ, NA, NI, NO, NZ, OA, OM, PG, PH, PL, PT, RO, RU, SC, SD, SE, SG, SK, SL, SY, TJ, TM, TN, TR, TT, TZ, UA, UG, US, UZ, VC, VN, YU, ZA, ZM, ZW

3. Reminder regarding translation into (one of) the official language(s) of the elected Office(s).

The applicant is reminded that, where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability (Chapter II).

It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned within the applicable time limit (Rule 74.1). See Volume II of the PCT Applicant's Guide for further details.

#### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/EP2004/007860

Box	No. V Reasoned statemen citations and expla	nt under Ai nations suj	rticle 35(2) with regard to novelty, inventive step or industrial applicability; poorting such statement	
1.	Statement	-		
	Novelty (N)	Claims	1-8	YES
		Claims		NO
:	Inventive step (IS)	Claims	1-8	YES
		Claims		NO
	Industrial applicability (IA)	Claims	1-8	YES
		Claims		NO

- 2. Citations and explanations (Rule 70.7)
  - This report makes reference to the following document:

D1: EP 0 348 180 A (MITSUBISHI
PETROCHEMICAL CO) 27 December 1989
(1989-12-27)

The present application meets the requirements of PCT Article 33(1), because the subject matter of the claims is novel within the meaning of PCT Article 33(2).

D1 discloses (the reference signs in parentheses refer to said document): a monomer solution (I) (cf. description, page 7, lines 55-60) containing 42.5 percent by weight of a radical polymerizable monomer that contains 57.5 percent by weight water.

The spray polymerization method is carried out using nitrogen (examples 1 and 2, page 8).

D1 does not, however, disclose a method in which the water content of the monomer solution is 60 to 95 percent by weight and the reaction temperature is 90

#### INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/EP2004/007860

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement to 300°C. The present claims involve an inventive step (PCT Article 33(3)). None of the documents cited in the search report teaches that increasing the water content of the monomer solutions to above 55 percent by weight also increases the absorption capacity.
